### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The prior art of record, which is the most pertinent art found, fails to teach and/or fairly suggest the instant invention. European Patent Application No. 0 724 968 is the closest art in that it shows the formation of an ink containing a carbon black suspension and a dye wherein the carbon black may be a channel black or a furnace black however applicant has provided evidence that channel blacks and furnace blacks are different from gas blacks. Furthermore based on the different properties of the various blacks there is no motivation to select a gas black from among the many types of carbon blacks that are available, nor would there be any predictability as to success. The record establishes that not all carbon blacks are the same and further that the industry makes clear distinctions with respect to the variety of carbon blacks. See also applicants arguments submitted on 15 July 2005 for further discussion of the differences.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony J. Green whose telephone number is 571-272-1367. The examiner can normally be reached on Monday-Thursday 6:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on 571-272-1233. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
